## alteryx

## Alteryx Analytic App Training Course Outline

Audience: Intermediate Users with at least 3-6 months of experience with Alteryx Time Frame: 1 Day Recommended class size: 12 students Schedule: 9:00 a.m. to 4:00 p.m., 1-hour lunch and 15-minute breaks, morning and afternoon Instructor: Courses are taught by a Certified Alteryx Professional

Price: \$2,500

This intermediate course is designed for students who are familiar with Alteryx and are ready to incorporate Analytic Apps into their self-service processes. The virtual classroom environment provides a hands-on experience in developing Analytic Apps using easy to follow step-by-step instructions, along with provided datasets and pre-built workflows. Students will also learn how to utilize Apps on their desktop and within their Alteryx Server Gallery, as well as share Apps with end users.

## Topics include:

- Intro to Alteryx Analytic Apps:
  - Discover how Apps enable automation
- stomers.csv and self-service
  - Learn about the server Gallery and its components
  - Explore the Designer Interface Tools and Viewer

 Understand best practices for designing, utilizing, and sharing Apps

- Use Interface Tools to create interactive Apps from standard workflows:
  - Action
  - Check Box
  - Date
  - Drop Down
  - File Browse
  - Folder Browse
  - List Box
  - Numeric Up/Down
  - Radio Button
  - Text Box

- Develop Apps for tasks such as:
  - Data Entry Forms
  - Filtering on criteria
  - Automating reports
  - Selecting a date range
- Chain Apps to run in succession
- Test and Debug Apps
- Explore the Server Gallery
- Learn about Studios, Collections and Districts
  - Upload Apps
  - Share Apps with other developers and end users
  - Enable Apps to be downloaded
  - Understand user types and permissions
  - Discover the Alteryx Public Gallery
- Achieve Goals:
  - Develop Analytic Apps to streamline your work
  - Allow end users to achieve self-service analytics
  - Move forward to Advanced Alteryx User Level
