KEYRUS

BE CURIOUS.
LEAD WITH ENABLEMENT.

BE PROACTIVE, NOT REACTIVE

With more than 40 courses delivered to over 200 learners, use our **Training and Enablement Services (TES)** to empower model builders and end users to gain more independence and confidence in using Anaplan

- Hand-to-keyboard exercises for aspiring solution architects
- Data analysis and navigation training for end users
- Customized development to establish a Center of Excellence
- Toolkit for design thinking developed by experienced solution architects

HOW CAN TES HELP YOU?

1 CREATE ANAPLAN CHAMPIONS
- Onboard new technical model builders or advance current builders
- Practice translating business requirements into technical development

2 PROMOTE SUSTAINABILITY AND SCALABILITY
- Define build standards to ensure model hygiene
- Practice good habits to build and design efficiently

3 EMPOWER CREATIVITY
- Build confidence in understanding applications to different business planning needs
- Envision final solution to create a connected planning experience
