User Experience Design
Designed for more technical audience (Model Builders)

- ~4 hours

- Learn vocabulary and features of the updated Anaplan User Experience (Apps and Pages)

- Discuss migration recommendations from classic dashboards

- Build in the new User Experience using your company's Anaplan models

- Review design best practices

Why this training?

Learn from Solution Architects who have experienced the thoughtful transition between classic dashboards and new user experiences

Receive 1:1 guidance as you work through sample exercises in a playground environment
